FIRSTRONIC SWEEPS SERVICE EXCELLENCE AWARDS

GRAND RAPIDS, MI -- Firstronic, (www.firstronic.com), won awards for Dependability/Timely Delivery, Responsiveness, Value for Price and Technology at the 2017 Service Excellence Awards (SEA) for Electronics Manufacturing Services (EMS) providers with revenues of \$101 million to \$500 million. The awards program was sponsored by Circuits Assembly magazine and recognized EMS companies that received the highest customer service ratings as judged by their own customers. The ceremony was held on Feb. 14, at the IPC APEX Expo in San Diego, CA.

“We consider these awards very significant because the ‘judges’ are our customers and we are competing against companies that offer the exact same services. I’d like to thank both our customers for their high ratings and our team for the performance that drove those ratings. Having also won the IndustryWeek Best Plant award this week, I think it is clear that the hard work our team has been doing has generated industry-leading results. We will continue to raise the bar on performance because our goal is to continue offering our customers innovative strategies that reduce cost while improving quality and responsiveness,” said John Sammut, Firstronic’s President and CEO.

About Firstronic LLC
